Residency for fee purposes, Montana University System

Table 12 portrays the percent of students for Fall 1985 within the Montana University System who are classified as residents for fee purposes.

Table 12. Distribution of Students by fee status within the Montana University System, Fall 1985

Institution	Resident	Non-resident
University of Montana	83.7	16.3
Montana State University	86.6	13.4

Eastern Montana College	96.9	3.1
Western Montana College	93.3	6.7
Northern Montana College	96.9	3.1
Montana University System	87.7	12.3

The figures in Table 12 represent students who have been reclassified from non-resident to resident status as well as students whose address at the time of initial application was in Montana but who were determined to be properly classified as non-residents. They also reflect students whose address upon application was outside Montana but who were determined to be properly classified as Montana residents. In addition, these totals reflect some students whose initial residency was in a foreign country but who have been granted permanent visas and thus had their residency changed.

First-Time Students

Students entering higher educational institutions for the first time are separately reported. There was a decrease of 8% in number of first-time freshmen from Fall 1984 to Fall 1985,

more than twice the decrease the previous year. Table 13 shows these data by institution.

1985 ENROLLMENT REPORT

Full-time versus part-time enrollment

Part-time enrollment, exclusive of enrollments in Continuing Education programs and non-credit community service programs at the community colleges, is a significant portion of total enrollments. Table 14 portrays these data for the last two years.

1985 ENROLLMENT REPORT

In 1985, part-time enrollments account for 25.4% of total enrollment in the state, a slight decrease from the previous period. In the Montana University System, part-time enrollments which vary from 10.8% at Montana State University to 32.5% at Eastern Montana College, account for 19.3% of the students. Table 15 shows the change in full-time and part-time enrollments from Fall 1984 to Fall 1985.

All units of the Montana University System had a decrease in full-time students. Western Montana College and Montana Tech had

increases in part-time students. Full-time students in all institutions in the state decreased by 2.6% while part-time students decreased by 5.1%

The College of Great Falls showed an increase in numbers of full-time students and a decrease in numbers of part-time students. Of the community colleges, Flathead Valley Community College showed an increase in full-time and part-time students.

Full-time equivalent students

For some purposes it is desirable to convert part-time students to full-time equivalent students. To do so, a formula which equates 15 undergraduate student credit hours (or 12 graduate student credit hours) to one full-time equivalent student is used. Table 16 portrays these data for higher education institutions in Montana for Fall 1984 and Fall 1985.

Full-time equivalent students for the fall term is a useful statistic for some purposes, but for budgeting actions a different statistic called the fiscal-year full-time equivalent (FYFTE) student is utilized. This statistic reflects enrollment for an entire fiscal year, including summer sessions. Table 17 shows an historical summary of fiscal-year full-time equivalent students within the Montana University System.

Distribution of student credit hour load

When converting headcount enrollment to full-time equivalent students, a factor of 15 student credit hours at the undergraduate level and 12 at the graduate level is used as the normal load for a full-time student. Table 18 shows the distribution of student credit hour loads for graduate, undergraduate, and other students within the Montana University System.

The numbers of degrees and certificates awarded by each institution in the State of Montana is reported to the National Center for Education Statistics yearly. Table 20 portrays the
